

Mission, Vision & Corporate Commitments

Policy Statement

MISSION

At Searcher, it is our mission to provide innovative subsurface data products and services that assist the global oil and gas industry to achieve exploration success.

VISION

Searcher will be the global multi-client company most admired for its commitment to quality subsurface data products and services, mutually beneficial partnerships and total customer satisfaction.

CORPORATE COMMITMENT

Searcher Seismic management's commitment to operating and maintaining a happy, healthy and safe work environment for its employees, contractors and project partners is reflected in its policy statements and is supported by a comprehensive Integrated Management System. Searcher's management team actively monitors and measures the company's OHS, Quality and Environmental performance and strives for continual improvement to meet its current and changing business strategies.

Searcher's employees, at all levels, are required to adhere to our eight core values:

- Responsibility
- Integrity
- Communication
- Honesty
- Encouragement
- Respect
- Innovation
- Quality
